Gentlemen,

Having had a financial reversal recently I did some research through the B B B in California and engaged Credit Card Relief company to assist me in making a recovery.

I would like to state they were very professional in their approach to my needs. Everything was explained in detail and well very clear. I am happy to say I have concluded my business with them & I wish to give them a 100% satisfaction rating. It was a pleasure having them help me in stressful times. A very good company. I can't praise them enough!

Sincerely

CARMICHAEL, CA. 95608
